

**BALL HOCKEY
CANADA**

2009 Women's Team Canada

September 28, 2009

Dear Sponsor:

Please accept this small token of appreciation for your sponsorship of Women's Team Canada. With your support, you have helped this team win the gold medal at the 2009 World Championships and achieve great success on the international ball hockey platform.

The team was comprised of highly talented, dedicated and diverse players as well as highly skilled and professional staff. And, as you know, being part of team Canada meant great responsibility and commitment from each player and staff member. With your contribution and sponsorship, you eased some of the financial burden and helped us all focus on the objective of winning gold. We can't thank you enough.

We hope that you can renew your commitment to our sport and to the team by sponsoring us again in 2011 where we will be competing to defend our title of World Champions.

Ball Hockey Canada has more than 60,000 members, aged 6 to 50, playing in leagues across our country every summer. The sport is recognized as a growing force in amateur athletics, and clearly represents the grass roots level of hockey because its ease of play and inexpensiveness attracts peoples of all ethnic and economic backgrounds. Our nation has quickly built a heritage of success on the international ball hockey field. The Men and Junior National teams have been extremely successful throughout the years and now Ball Hockey Canada wants to continue that same success at the women's level.

If you wish any further information or want to provide sponsorship, please do not hesitate to contact our Sponsorship and Marketing Director, Kathy Barnett at barnett@veritascanada.com or 416-482-2248.

Sincerely,

A handwritten signature in black ink, appearing to read 'Sophie Dagenais', written in a cursive style.
